The Class 22E single cab dual voltage electric locomotive fleet is being built by the Zhuzhou Electric Locomotive Company, a subsidiary of CRRC Corporation Ltd, principally a Chinese state owned enterprise. The first 40 locomotives were fully imported while the remainder of the fleet, eventually to comprise 359 locomotives, is being built locally at Transnet Engineering's Koedoespoort Works in Pretoria. Here locally built 22166 leads China built 22024 with a load of empty ore wagons west-bound between Arbor and Argent in Mpumalanga Province on Saturday afternoon 26 May 2018. Eskom's Kendal Power Station looms in the background. The catenary shows evidence of a third track on the right, now removed, installed in steam days on the long climb between Arbor and Argent to expedite coal traffic from Witbank to the Reef and beyond.
